ORDER

On June 24, 1985, the inmates of the State Correctional Institution at Graterford, Pennsylvania filed "Exceptions to the Board's Order of June 12, 1985." In that Order, the Board accepted the contention and two of the proposed eight bases.

In its "Exceptions," which the Board treats as a motion to reconsider our June 12 Order, the inmates seek yet another review of their contention and reinstatement of the six bases reviewed and rejected by this Board in the June 12 Order.

On June 28, 1985 the Board received "Applicant's Answer to 'Exceptions' to the Licensing Board's Order of June 12, 1985 filed by the Graterford Prisoners." This answer opposed reinstatement of the six rejected bases.

A telephone survey by the Board's secretary has determined that the Commonwealth of Pennsylvania and the NRC Staff will not respond to the inmates' motion in view of time restraints on all parties. The issue is ripe for decision.

The Board has reviewed the aforementioned pleadings, our Order of June 12, and the entire record on the matter of the "Proposed Revised Contentions of the Graterford Inmates with Regard to the Radiological Response Plan" filed May 13, 1985.

The Board finds the inmates arguments without merit and we reaffirm our Order of June 12, 1985.
