Re: License Renewal
Licence No. 37-17717-02

Dear Mr. Glenn:

This letter is in response to correspondence from the NRC and received by our firm on September 24, 1984, informing us that our materials license is about to expire. All items listed on our current license would appear without change on our new license with the exception of item twelve (12).

Due to personnel turnover and the long tenure of the license it is difficult to maintain a current record (in NRC files) of personnel. Company files are current. In an effort to reduce the amount of paperwork involved we are requesting that condition twelve (12) read as follows:

Licensed material shall be used by or under the supervision and in the physical presence of O.T. McConnell and Andrew J. Smith, or individuals who have successfully completed the training course described in the letter dated January 18, 1984 and currently documented in company files.

To update your office, the following is a list of the controlled equipment currently in our inventory.

Quantity	Gauge and Model Number	Instrument Serial Number	Source/Activity
1	Troxler 2401	1997	Ra226; Be/2mCi
4	Troxler 3411	6829, 8512, 9904, 9928	Cs137/8.2 mCi Am241; Be/40mCi
1	Troxler 1352 with scaler	124	Cs137/8.2 mCi
1	Troxler 1351 with scaler	220	Cs137/8.2 mCi

As per fee schedule dated June 20, 1984 category 3P, we are remitting a check for the amount of \$120.00.

Please accept this letter as a request to renew/extend our license as applicable.

We hope that the information supplied meets your requirements. Should you have any further questions or comments please contact our office.

Sincerely,

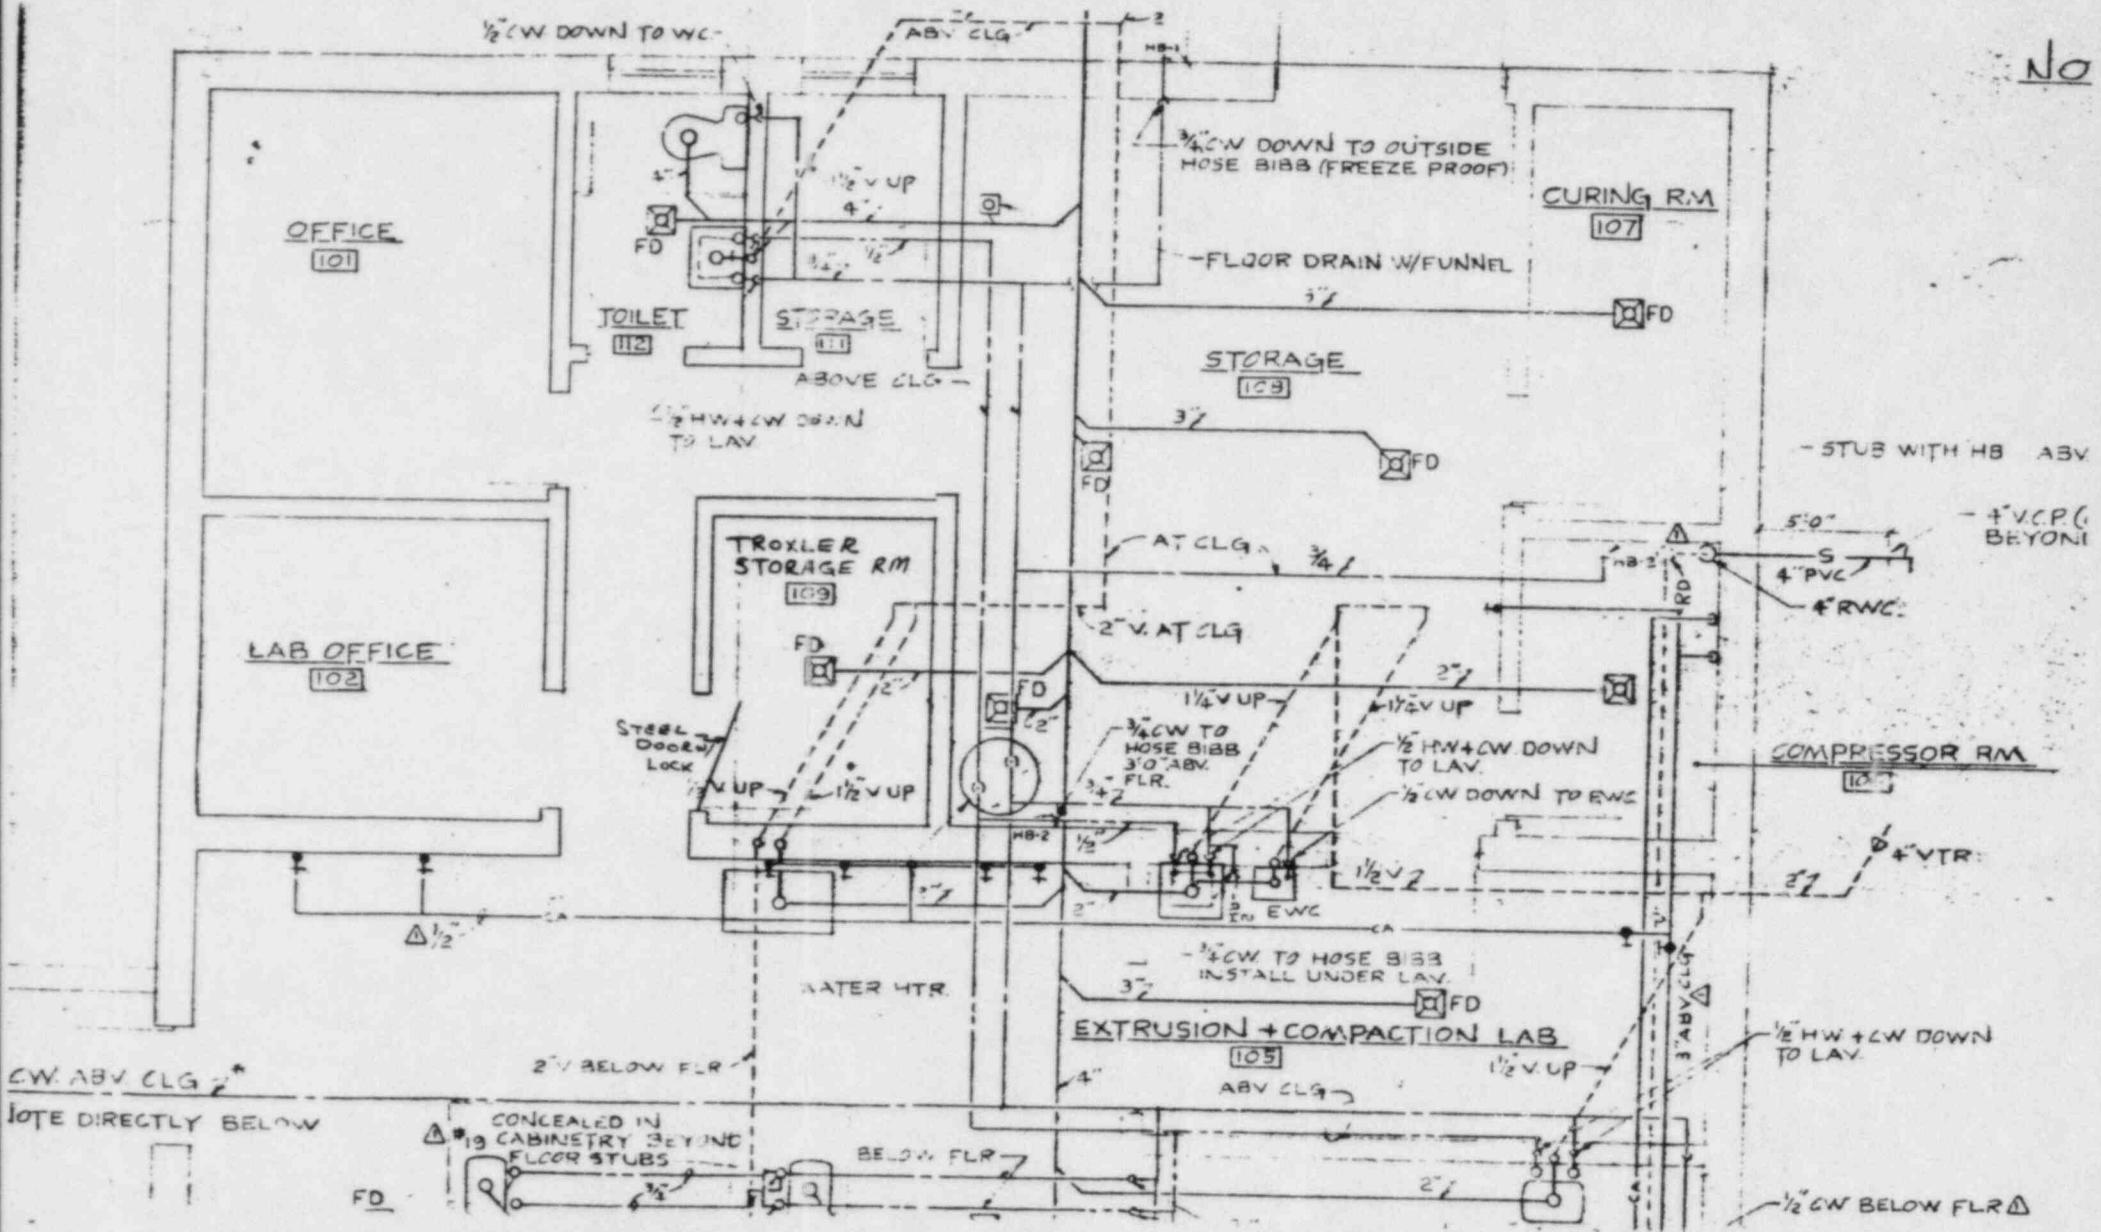

L. ROBERT KIMBALL AND ASSOCIATES
