Ms. J. S. Charnley, Manager
Nuclear Fuel Licensing
General Electric Company
175 Curtner Avenue
San Jose, California 92125

Dear Ms. Charnley:

SUBJECT: ACCEPTANCE FOR REFERENCING OF LICENSING TOPICAL REPORT NEDE-24011-P
AMENDMENT 7 TO REVISION 6, "GENERAL ELECTRIC STANDARD APPLICATION
FOR REACTOR FUEL"; SER PAGE CHANGES FOR CLARIFICATION

Reference: Cecil O. Thomas' March 1, 1985 letter to J. S. Charnley, Subject:
Acceptance for Referencing of Licensing Topical Report NEDE-24011-
(P) Amendment 7 to Revision 6, "General Electric Standard
Application for Reactor Fuel".

By referenced letter we transmitted both our acceptance of the subject topical report amendment and our Safety Evaluation (SER). Transmitted herewith are page changes to the SER which provide some clarifications. We find the report to be acceptable for referencing in license applications to the extent specified and under the limitations delineated in the report and the associated NRC evaluation, which is enclosed. The evaluation defines the basis for acceptance of the report.

We do not intend to repeat our review of the matters described in the report and found acceptable when the report appears as a reference in license applications, except to assure that the material presented is applicable to the specific plant involved. Our acceptance applies only to the matters described in the report.

In accordance with procedures established in NUREG-0390, it is requested that GE publish accepted versions of this report, proprietary and non-proprietary, within three months of receipt of this letter. The accepted versions shall incorporate this letter and the evaluation with the enclosed page changes between the title page and the abstract. The accepted versions shall include an -A (designating accepted) following the report identification symbol.

Should our criteria or regulations change such that our conclusions as to the acceptability of the report are invalidated, GE and/or the applicants

RD-8-4, GE
