Dear Mr. McDonald:

SUBJECT: DRAFT TECHNICAL EVALUATION REPORT (TER) FOR ITEM 1.2 OF
GENERIC LETTER 83-28 FOR JOSEPH M. FARLEY NUCLEAR PLANT
UNITS 1 AND 2

The staff has completed a preliminary review to assess the completeness and adequacy of licensee responses to Generic Letter 83-28 Item 1.2. The enclosed Draft TER represents the staff's initial judgment of the areas evaluated. Pen and ink changes have been made to the TER for consistency.

In order to maintain our present review schedule, we would appreciate your cooperation in obtaining additional information that will permit us to complete our review. It would appear that the needed information on your facility could be obtained by telephone conference within one week of your receipt of the Draft TER. The assigned NRC Project Manager should be advised of an acceptable time to conduct the necessary conference calls. This telephone conference would then be followed up by a submittal documenting the results. Our final evaluation would follow shortly thereafter.

The reporting and/or recordkeeping requirements of this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

/s/SVarga

Steven A. Varga, Chief
Operating Reactors Branch #1
