Attention: William T. Crowe

Subject: Whittaker Corporation - License No. SMA-1018

Dear Mr. Crowe:

Reference is made to my letter to you dated March 19, 1984 in which Whittaker requested that NRC amend the license No. SMA-1018 so it covered only Region A of the map attached to that letter, thus releasing Region B for unrestricted use by the Air Products and Chemical Co.

Subsequently, the site was radiologically surveyed by Oak Ridge Associated Universities in June 1984. Radioactivity materials within Region B producing radiation levels above the standards for unrestricted use were removed by Air Products and Chemical Co. and Whittaker and shipped to the Washington State site of U.S. Ecology, Inc. The Region B was rechecked by James Berger of ORAU in December 1984 and a line separating Regions A and B was established in the field.

Recently, Whittaker has had a new boundary line surveyed separating Regions A and B by E. A. Winslow, Consulting Engineers. Physically, this line conforms to the original line separating Regions A and B as modified by the radiation survey of ORAU.

The new boundary will separate the lands of Whittaker Corporation (formerly Region A) from those of Air Products and Chemical Corp., Region B, and which may soon become the lands of Greenville Metals, Inc.

Whittaker will become the owner as well as the controlling agent of the lands designated on the map as Whittaker Corp. (formerly Region A) land.

Letter to: William T. Crowe
May 20, 1985
Page Two

Thus, by this letter, Whittaker requests the Nuclear Regulatory Commission to amend the License so it covers only the land designated on the attached map as Whittaker Corp. land, thus releasing the rest of the site designated as Greenville Metals, Inc. land to unrestricted use by Greenville Metals, Inc. and Air Products and Chemical Corp.

Thank you for your cooperation in this matter. Please contact me if you have any questions or comments regarding this request.

Very truly yours,

WHITTAKER CORPORATION
