Docket Nos.: 50-445
and 50-446

MEMORANDUM FOR: Chairman Palladino
Commissioner Roberts
Commissioner Asselstine
Commissioner Bernthal
Commissioner Zech

FROM: Vincent S. Noonan, Director
of Comanche Peak Project
Division of Licensing
Office of Nuclear Reactor Regulation

SUBJECT: BOARD NOTIFICATION - SUMMARY OF MEETING BETWEEN NRC
STAFF AND TEXAS UTILITIES CONCERNING A REANALYSIS OF
THE ROCK-STRUCTURE INTERACTION FOR COMANCHE PEAK
(BOARD NOTIFICATION NO. 85-065)

This Notification is being provided to the Commission in accordance with the revised Commission's notification policy of July 6, 1984, to inform the Commission on all issues on the cases before the Commission.

On June 18, 1985, the NRC staff met with Texas Utilities to discuss the reanalysis of the rock-structure interaction for Comanche Peak. Texas Utilities has been working on this reanalysis for the purpose of assessing the seismic margin in the in-structure floor response spectra considering improvements in the technology that have occurred since the response spectra in the FSAR were developed. The meeting consisted of a presentation by Texas Utilities during which the staff and applicant discussed in detail the pros and cons of the methodology and engineering decisions used in the example reanalysis, and the impact on the licensing review of a submittal requesting acceptance of new design information. The staff cautioned the applicant that should Texas Utilities make a submittal, it should be very clear on how they intend to use the results of the reanalysis.

PDR ADOCK 05000445
T PDR

At the close of the meeting, Texas Utilities advised they will evaluate whether a submittal requesting NRC acceptance of a reanalysis should or should not be made. If that decision is affirmative, they will further evaluate changes to their ongoing reanalysis model as discussed in the meeting.

A copy of the meeting summary and transcript is provided for your information.

The parties to the proceeding are being notified by copy of this memorandum.

Vincent S. Noonan, Director
for Comanche Peak Project
Division of Licensing
Office of Nuclear Reactor Regulation
