The Commission has issued the enclosed Amendment No. 88 to Facility Operating License No. DPR-39 and Amendment No. 78 to Facility Operating License No. DPR-48 for the Zion Nuclear Power Station, Unit Nos. 1 and 2, respectively. The amendments consist of changes to the Technical Specifications in response to your application transmitted by letter dated February 5, 1985.

These amendments would revise the actions required in the event of an inoperable rod due to a rod urgent failure condition.

A copy of the related Safety Evaluation is enclosed. A Notice of Issuance will be included in the Commission's next regular monthly Federal Register notice.

Sincerely,

/s/SVarga

Jan Norris, Project Manager
Operating Reactors Branch #1
Division of Licensing
