

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

November 30, 1992

The Honorable Edward J. Markey
United States House of Representatives
Washington, D.C. 20515

Dear Congressman Markey:

On March 20, 1990, the NRC committed to provide you periodic reports on the implementation status of the Three Mile Island (TMI) Action Plan Requirements at commercial nuclear power plants. The enclosed Supplement 2 to NUREG-1435 contains our most recent assessment of licensee actions and commitments in this area.

Continued progress has been made in reducing the number of TMI Action items not implemented. Since our last report, the number of unimplemented items has been reduced from 123 to 86, with 37 of the open items being at three plants: Browns Ferry Units 1, 2, and 3. The remaining 49 open items are dispersed among 45 plants. All action requirements have been completed at 62 facilities.

Although significant progress has been made in implementing TMI Action Plan Requirements, continued effort is needed to resolve the remaining open items. The Commission will continue to closely monitor licensee actions and commitments at plants with open items and provide an annual status report until all TMI Action Plan Requirements have been satisfactorily implemented.

Sincerely,

Kenneth C. Rogers
Acting Chairman
