Group Vice President

P.O. Box 14000

Gentlemen:

SUBJECT: DOCKET NOS.: 50-250 AND 50-251

This acknowledges the receipt of your letter of March 6, 1985, which transmitted Revision 3 to the Turkey Point Guard Training and Qualification Plan.

Our review of the changes had found most of them to be consistent with the provisions of 10 CFR 50.54(p). Accordingly, they are acceptable for inclusion into the plan. However, as indicated in the Enclosure, certain other changes require minor administrative clarification and one change is not consistent with the provisions of 10 CFR 50.54(p). On June 13, 1985, Mr. J. Ennis of Region II discussed our concerns with Mr. R. Garrett of FP&L.

Please revert to the commitments in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission, Office of Nuclear Reactor Regulation, under the provisions of 10 CFR 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Roger D. Walker, Director
Division of Reactor Projects
