

NMSS:JEW
Control No. 16604

JAN 16 1985

The Western Company of North America
Western Petroleum Services
ATTN: Robert J. Slaughter
Radiation Protection Officer
P. O. Box 186
Fort Worth, Texas 76101

Gentlemen:

This is in reference to your request for a byproduct material license renewal in the name of The Western Company of North America. In order for us to complete our review of your request, please supply the following:

1. The following documents and records should be available at temporary job sites:
- Operating and emergency procedures.
 - Survey records for the period of operation at the temporary job site.
 - Evidence of current calibration for the radiation survey instruments in use at the temporary job sites.
 - When operating in an Agreement State under reciprocity, a copy of your NRC license.

It is not necessary to submit copies of documents you will have available at all temporary job sites. You need only state that you plan to have these documents available for NRC/Agreement State inspection, just restate the documents you plan to have available at each temporary job site.

2. The following documents and records should be available at field stations where radioactive materials are used or stored:
- Copy of the NRC license.
 - Operating and emergency procedures.
 - Applicable NRC regulations.

- d. Records of the latest survey instrument calibrations on each survey instrument.
- e. Records of the latest leak test results on each sealed source.
- f. Semiannual physical inventories.
- g. Utilization records.
- h. Records of inspection and maintenance.
- i. Survey records that denote compliance with 10 CFR 20.201.

It is not necessary to submit copies of documents you will have available at all field stations where radioactive materials are used. You need only state that you plan to have these documents available for NRC/Agreement State inspection. Just restate the documents you plan to have available at each field site using radioactive material.

- OK 3. Please provide written instructions to your workers which will cover safety measures to be used in transporting the devices in the applicant's vehicle (for example, fully secured within the transportation vehicle and away from the passenger compartment). Transportation activities must be carried out in accordance with the requirements of 10 CFR Part 71 and Department of Transportation regulations.

We will continue our review of your application upon receipt of this information. Please reply in duplicate and refer to Control No. 16604.

Sincerely,

Original Signed By
Jack E. Whitten
