OFFICE OF INSPECTION AND ENFORCEMENT  
NOTIFICATION OF SIGNIFICANT ENFORCEMENT ACTION

Licensee: Pittsburgh Testing Laboratory, Pittsburgh, PA  
License No. 37-00276-25

Subject: ORDER TO SHOW CAUSE WHY LICENSE SHOULD NOT BE SUSPENDED  
AND MODIFIED (EFFECTIVE IMMEDIATELY)

This is to inform the Commission that an Order to Show Cause Why License Should not be Suspended and Modified, Immediately Effective, is being issued today to Pittsburgh Testing Laboratory (PTL). This Order requires the immediate removal of the District Manager and Radiation Safety Officer (DM/RSO) for the PTL Cleveland, Ohio facility and prohibits his involvement in the performance or supervision of any NRC licensed activities. In addition, the Order requires all licensed activities at the Cleveland facility be suspended until certain conditions are implemented including the replacement of the Cleveland, Ohio facility DM/RSO with an individual approved by the NRC.

This action is being taken because during an interview conducted under oath with the current DM/RSO of the Cleveland facility it was established that he (1) assigned an individual he knew was not certified to perform licensed activities; (2) gave false information to an NRC inspector; (3) falsified training records; and (4) told an NRC inspector that radiography had not been performed at the Cleveland, Ohio facility when, in fact, he knew that radiography had been performed.

Under the terms of the Order the licensee may within 20 days of the date of the Order, show cause why this Order should not have been issued by filing a written answer under oath or affirmation.
