Inspection Summary

Inspection on November 2-6, 1992, (Reports No. 50-456/92024(DRSS); No. 50-257/92024(DRSS))

Areas Inspected: Routine, announced physical security inspection involving Management Support, Security Program Plans and Audits; Protected and Vital Area Physical Barriers, Detection and Assessment Aids; Alarm Stations and Communications; Followup on Previous inspection findings; and Followup on Fitness For Duty events.

Results: The following non-cited violation was identified and reviewed during this inspection period:

Two individuals were badged for unescorted access to the protected area without a valid negative drug screen test result. (Section 6)

The four open previous inspection findings were closed. (Section 2)

The installation of an upgraded assessment system was identified as a program strength. (Section 5)

The protected and vital area physical barriers, detection systems, assessment aids, alarm stations and communication systems were maintained in an

effective, excellent condition. Corporate and station management support for the security program was found to be excellent.
