

NOV 25 1992

Docket No. 50-155

Consumers Power Company  
ATTN: Mr. William L. Beckman  
Plant Manager  
Big Rock Point Nuclear Plant  
Charlevoix, MI 49720

De: Mr. Beckman:

SUBJECT: REVIEW OF REVISION TO SITE EMERGENCY PLAN

We have received Revision 104 to Appendix A of the Site Emergency Plan. We have reviewed this revision and have determined that it is acceptable and that it does not degrade the effectiveness of your emergency planning.

Revision 104 was an annual update of letters of agreement with offsite support organizations. A new agreement was created with Boyne City, Michigan, officials so that nonessential personnel, who may be ordered to evacuate the site, would proceed to a predesignated location in Boyne City for radiological monitoring and decontamination, as needed.

Revision 104 also included a February 1991 letter of agreement with Teledyne Isotopes Midwest Laboratory. During a November 1992 emergency preparedness inspection at your facility (Inspection Report No. 50-155/92023 (DRSS)), a 1992 update to this letter of agreement was made available. We suggest that your staff submit a copy of this updated letter in the next revision to the Site Emergency Plan.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 790-5634.

Sincerely,

"Original signed by J. W. McCormick-Barger"

J. W. McCormick-Barger, Chief  
Emergency Preparedness and  
Non-Power Reactor Section
