Gentlemen:

This is in reference to your request in a letter dated January 3, 1985 to amend License No. 18-01475-15. In order to continue our review, we need the following additional information:

Please note 10 CFR 20.205(d) indicates each licensee shall establish and maintain procedures for safely opening packages. These procedures should include monitoring of the package at 3 feet and on the surface as well as a contamination smear survey of the final source container. (See Appendix F of the enclosed Regulatory Guide 10.8) You may propose procedures with less control for packages containing byproduct material in quantities less than or equal to those listed in Schedule B of 10 CFR 30.71.

We will continue our review upon receipt of this information. Please reply in duplicate to my attention at the Region I office and refer to Mail Control No. 03301.

Sincerely,
