United States Nuclear Regulatory Commission  
Region 1  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

Attn: Phillip C. Jerman  
Division of Engineering and Technical Programs

Subject: Renewal of materials license number 37-01563-3

Dear Sir:

We are applying for renewal of our materials license which expires 31 October 1984.

We have made no significant changes in our program since our last amendment of 14 December 83. We are constructing, however, new facilities which we expect to move into within the year. We enclose our room plans for the new facilities. We will perform the necessary decontamination survey and wipe tests at the time of moving and we will forward them to you. Our present rooms will then be released for unrestricted use.

Enclosed please find our check for five hundred and eighty dollars (\$580.00) to cover the renewal fee.

Thank you.
