U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555

Re: Docket No. 50-133, OL-DPR-7
Humboldt Bay Power Plant, Unit 3
Emergency Plan for SAFSTOR, Revision 2

Gentlemen:

In accordance with 10 CFR 50.4 and 10 CFR 50.54q, enclosed is Revision 2 to the Humboldt Bay Power Plant (HBPP) Unit 3 Emergency Plan for SAFSTOR (Enclosure 1). Because this Emergency Plan was incorporated into the HBPP Plant Manuals, it was numbered according to the current PG&E system for maintaining the Plant Manuals. Therefore, "Volume 3, Revision 20" appears at the top of each page of this revision.

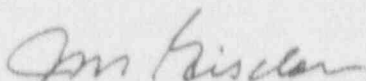

Revision 0 of the proposed Emergency Plan for SAFSTOR was submitted April 4, 1985. Revision 1 to the proposed Emergency Plan was submitted May 23, 1988. After Revision 1 was accepted by the NRC in a letter dated August 4, 1988, it was incorporated into the HBPP Plant Manuals as Revision 0 of the approved Emergency Plan.

In February 1992, Revision 1 of the approved Emergency Plan was issued to all controlled copies of the HBPP Plant Manual, including those for the NRC, Region V. However, Revision 1 was not submitted to the Document Control Desk as required by 10 CFR 50.4. The now superseded Revision 1 of the approved Emergency Plan is included as Enclosure 2 to this letter.

Page 5 of Attachment 9.1 of this update contains privacy/proprietary information and is bracketed in accordance with Generic Letter 81-27.

These revisions to the approved Emergency Plan have not reduced the effectiveness of the Plan.

Sincerely,

J. M. Gislson
