Eurand America, formerly known as Capsular Products Company, would like to cancel its license with the U. S. Nuclear Regulatory Commission. A copy of the license is attached. Enclosed also are copies of correspondence with Self-powered Lighting and Varian Instrument Company which shows that the nickel-63 and hydrogen-3 by-product sources are no longer in our possession and, consequently, the license is no longer required.

Please confirm to me in writing that this completes the matter.

Sincerely yours,

J. A. Bakan
