Gentlemen:

In our May 8, 1985 letter, we stated that we were withholding approval of your response to Nonconformance B of inspection report 99900881/84-01 pending a response from ASTM on our inquiry concerning measuring techniques. On June 21, 1985, we received a response from ASTM. The original inquiry and the responses are enclosed. Based on the response from ASTM we find your response to Nonconformance B acceptable. This closes out all Violations/Nonconformances identified during the inspection of your Campbell plant.

We will review your corrective action and preventive measures during a future inspection to assure that full compliance has been achieved and will be maintained.

Sincerely,
