Re: Renewal of License No. 37-0261-04

Dear Mr. Carrico:

We would like to request the renewal of our License No. 37-0261-04 with the following approved ammendments:

No. 01 - June 30, 1980
No. 02 - Sept. 19, 1980
No. 03 - Dec. 23, 1980
No. 04 - Sept. 14, 1981
No. 05 - Dec. 29, 1981
No. 06 - July 20, 1982

We request that two changes be made to the License. First, we would like to relieve Mr. Sheridan J. Rodgers of the responsibility of Radiation Safety Officer and replace him with Mr. W. Julian Carter. Mr. Rodgers will remain in his supervisory responsibility and we expect his expertise to be used frequently.

I have successfully completed the Fundamentals of Health Physics course given by the Applied Health Physics Corporation and was issued Certificate No. 8303-001 which expires May 18, 1985. I have also completed the 40 hour Basic Training Course: The Control of Ionizing and Nonionizing Radiation for Radiation Safety Officers, December 7-11, 1981. I, W. Julian Carter, also attended a seminar on the New Concepts in Radiation Safety ANS/HPS in Pittsburgh on March 5-6, 1982.

I am a graduate chemist from Emory University holding an A.B. degree and a graduate of Carnegie Mellon University with a B.S. degree in Management and Administrative Sciences.

My previous experience with radiation involved a research program at MSAR in 1962-1964 in which I used I¹³¹ as a tracer in a filter efficiency research and development program.

The second change in the License would be the use of Mine Safety Appliances Company rather than MSA Research Corporation. Mine Safety Appliances Company is the parent company and although either organization's name could appear on the license, we believe the parent organization, Mine Safety Appliances Company, more accurately reflects radiation activities at this time.
