Gentlemen:

This is in reference to your application, dated April 2, 1984 and your letter dated January 4, 1985 in support of this application, to renew Byproduct Material License No. 37-00261-04. In order to continue our review, we need the following additional information:

Since your experience with radioisotopes occurred more than 20 years ago, you should receive additional training of approximately 6 months duration. Once this refresher training has been completed, we will be pleased to consider your request to be designated as RSO. In the meantime, we suggest that one of the currently authorized users listed in Condition 12.A of your license be assigned the duties of RSO. Please submit the name of the individual you wish to designate as temporary RSO until you receive the additional training.

We will continue our review of your application upon receipt of this information. Please reply in duplicate and refer to Control No. 17391.

Sincerely,

Original Signed By:
