Mine Safety Appliances Company
ATTN: Mr. Sheridan J. Rodgers
Radiation Safety Officer
Evans City, Pennsylvania 16033

Gentlemen:

This refers to Materials License 37-00261-04, Amendment No. 07, issued February 26, 1985. The amendment was issued in response to your April 2, 1984 application for renewal.

Through an oversight, the renewal was issued without remittance of the prescribed fee. Enclosed is a copy of 10 CFR 170, which was in effect at the time your renewal application was filed. A \$150 renewal fee was submitted with the application; however, a review of your license indicates that your application should have been accompanied by renewal fees totalling \$260 as specified in fee Categories 3K (\$150) and 3L (\$110) and Footnote 1(c) of §170.31, 10 CFR 170. Footnote 1(c) states, in part, that "Applications for renewal of materials licenses and approvals shall be accompanied by the renewal fee for each category...." Fee Category 3K pertains to the research portion of your license and fee Category 3L pertains to the authorization to provide services to other licensees (Item H). Therefore, an additional fee of \$110 is required for your April 2, 1984 renewal application.

In addition, your October 8, 1981 application for authorization to provide services for other licenses, for which a \$40 amendment fee was paid, should have been accompanied by a \$110 application fee as specified in fee Category 3L and Footnote 1(d) of §170.31. Footnote 1(d) states, in part, that "An application for amendment to a materials license or approval that would... add a new category shall be accompanied by the prescribed application fee for the new category". Therefore, an additional fee of \$70 is required for your October 8, 1981 application for amendment.

Payment of the additional \$180 should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention. Also enclosed is a copy of revised 10 CFR 170, which went into effect June 20, 1984. License 37-00261-04 is currently subject to the fees specified in fee Categories 3M and 3N of \$170.31.

If you have any questions concerning this matter, please let me know.

Sincerely,
