South Texas Project
Units 1 & 2
Docket Nos. STN 50-498, STN 50-499
Submittal of Revised Emergency Response Procedures

Pursuant to the requirements of 10CFR50, Appendix E, Houston Lighting & Power submits the complete current set of Emergency Response Procedures and Emergency Preparedness Procedures for the South Texas Project. This submittal is in response to a recent interval during which the NRC Document Control Desk was not included in the distribution of these procedures.

Procedure revisions prior to September 1992 were sent to the Document Control Desk, as required. However, HL&P revised its distribution process and the Document Control Desk was inadvertently not included in the distribution. This oversight was discovered through an internal review by HL&P personnel. NRC Region IV and the Resident Inspector have been on the list of recipients. The Document Control Desk has since been added to that list.

With two exceptions, the procedure set includes all of the procedures revised beginning in September 1992. The exceptions are two revisions that were superseded by later revisions.

If there are any questions, please contact either Mr. P. L. Walker at (512) 972-8392 or me at (512) 972-7138.

S. L. Rosen
Vice President,
