Licensing Branch
Division of Fuel Cycle Safety & Safeguards, NMSS
United States Nuclear Regulatory Commission
Mail Stop T8D14
Washington, D.C. 20555

Dear Mr. Lamastra:

Kathryn S. Knapp has accepted a promotion to Quality Director of Framatome Cogema Fuels. As of August 15, 1996 Gayle F. Elliott replaced Kathryn as Manager of Safety and Licensing at our Lynchburg Manufacturing Facility. Gayle's responsibilities will be the same as her predecessor, including all interface with the NRC concerning SNM-1168 and compliance with 10CFR70 and 71.

Ms. Elliott has 13 years of experience with the company including her work in the company's Manufacturing Engineering and Quality Technology organizations. She brings with her an educational background that consists of a Bachelor of Science degree in mathematics and a Master of Business Administration. Please support Ms. Elliott in her new position and provide all future correspondence to Ms. Elliott's attention. If you have any concerns or comments, please contact me at (804) 832-5015.

Sincerely,

FRAMATOME COGEMA FUELS
Lynchburg Manufacturing Facility
