June 6, 1980

The Honorable John F. Ahearne
Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Chairman:

Enclosed is a statement submitted by the Nuclear Utility Group on Enforcement (NUGOE) in response to the proposed NRC Enforcement Policy presented to the Commission by the Staff in SECY 80-139 (March 13, 1980). The purpose of this statement is to present to the Commission what we perceive to be the proper goal of any NRC Enforcement Program and the policies upon which such a program should rest.

As we indicated in our April 25, 1980 letter to you, we are also developing an alternative Enforcement Program and intend to submit it to the NRC in July, 1980.

NUGOE consists of 30 NRC-licensed power reactor licensees and the Edison Electric Institute.

We trust that the Commission and Staff will afford thorough consideration to this statement and our upcoming statements, which are intended to provide maximum input at each stage of Enforcement Policy development. After our alternative Enforcement Program is submitted to the Commission, we would appreciate the opportunity to meet with you on this matter.
