Transmittal of Licensing
Documents to Atomic Energy
Control Board of Canada

Dear Mr. Youngblood:

This letter is in response to your letter dated June 19, 1985 requesting specific documents be provided to the Atomic Energy Control Board (AECB) of Canada. Chapter 1 of the FSAR, containing changes through Amendment 19, and the Perry Nuclear Power Plant Emergency Plan, Revision 4, have been forwarded to the AECB. Future revisions and amendments to these documents will be forwarded as they become available. We have also requested the State and Counties to place the AECB on direct distribution for controlled copies of their off-site Emergency Plans. This will allow the State and Counties to maintain direct control over their own plans.

We feel that providing these documents to the AECB should satisfy their request. If you have any questions, please feel free to call.

Very truly yours,

Murray R. Edelman
Vice President
