

JUN 28 1985

Docket No. 030-13585

License No. 29-04181-05

MEMORANDUM FOR: Maureen Moriarty, Licensing Assistance Section, FCMS, NMSS
FROM: John D. Kinneman, Chief, Nuclear Materials Safety Section A
SUBJECT: EXPIRED LICENSE, ENGELHARD MINERALS AND CHEMICAL CORPORATION
ISELIN, NEW JERSEY

On January 11, 1985, a licensee representative, Mr. Jacob Schneider, Director of Operations, Electronics Group, was contacted and informed that License No. 29-04181-05 had expired on March 31, 1983 and that no renewal application had been received. The licensee representative explained that they have received and possessed licensed material, but now possess no licensed material and wish to have the license terminated. Licensed material was disposed of by returning the gauge to the manufacturer Texas Nuclear Corporation. This was confirmed in a letter from the licensee dated May 24, 1985.

Based on a review of the information supplied by the licensee and a review of the type and form of material authorized by the license, a close out survey by the licensee is not required and this license may be retired.

Based on the above information, we have retired License No. 29-04181-05. Please remove it from your active shelves.
