In the Matter of
LONG ISLAND LIGHTING COMPANY
(Shoreham Nuclear Power Station, Unit 1)
Docket No. 50-322-OL-4 (Low Power -- Remand)

Dear Mr. Chilk:

In the NRC Staff Response to Suffolk County and State of New York Petition for Reconsideration of CLI-85-1 filed on May 13, 1985, the Staff indicated its intention to file a supplement to its March 19, 1985 Response to the State and County's March 4, 1985 Renewal of Request for NRC Supplementation of the Shoreham FEIS. (May 13th Response at 18, fn. 11). At the time the Staff filed its May 13th Response, the Staff was unaware that the Commission had already declined to reconsider its decision (CLI-84-9) holding that supplementation of the Shoreham FEIS was not required by NEPA. (See Letter of April 18, 1985 from Chilk to Brown and Lanpher). In light of the fact that there is no motion pending before the Commission related to CLI-84-9, the Staff wishes to inform the Commission that it will not be supplementing its March 19th Response. We apologize for any confusion our May 13th filing may have caused.

Sincerely,

Robert G. Perlis
Counsel for NRC Staff
