Mr. J. H. Taylor, Manager
Licensing Services
Babcock & Wilcox
3315 Old Forest Road
Post Office Box 1260
Lynchburg, Virginia 24505-1260

Dear Mr. Taylor:

SUBJECT: ACCEPTANCE FOR REFERENCING OF LICENSING TOPICAL REPORTS: BAW-10092(P)
REV. 3, "-CRAFT2- FORTRAN PROGRAM FOR DIGITAL SIMULATION OF A
MULTINODE REACTOR PLANT DURING LOSS OF COOLANT" AND BAW-10154(NP),
DOWNGRADED TO NON-PROPRIETARY BY J. H. TAYLOR'S 2/10/83 LETTER TO
JOHN S. BEPGREN, "B&W'S SMALL-BREAK LOCA ECCS EVALUATION MODEL"

We have completed our review of the subject topical reports submitted November 1, 1982 by Babcock & Wilcox (B&W) letters. We find the reports to be acceptable for referencing in license applications to the extent specified and under the limitations delineated in the reports and the associated NRC evaluation, which is enclosed. The evaluation defines the bases for acceptance of the reports.

We do not intend to repeat our review of the matters described in the reports and found acceptable when the reports appear as references in license applications, except to assure that the material presented is applicable to the specific plant involved. Our acceptance applies only to the matters described in the reports.

In accordance with procedures established in NUPEG-0390, it is requested that B&W publish accepted versions of these reports, within three months of receipt of this letter. The accepted versions shall incorporate this letter and the enclosed evaluation between the title page and the abstract. The accepted versions shall include an -A (designating accepted) following the report identification symbol.

Should our criteria or regulations change such that our conclusions as to the acceptability of the reports are invalidated, B&W and/or the applicants referencing the topical reports will be expected to revise and resubmit their respective documentation, or submit justification for the continued effective applicability of the topical reports without revision of their respective documentation.

Sincerely,

Should our criteria or regulations change such that our conclusions as to the acceptability of the reports are invalidated, P&W and/or the applicants referencing the topical reports will be expected to revise and resubmit their respective documentation, or submit justification for the continued effective applicability of the topical reports without revision of their respective documentation.

Sincerely,

Cecil O. Thomas
