Gentlemen:

We have reviewed your submittal of May 31, 1985, for the annual update  
to the Consolidated Safety Analysis Report for Morris Operation (Docket  
No. 72-1). We find it acceptable and have no comments.

It has come to our attention that when we reviewed your submittal of May 10,  
1984, as supplemented July 24, 1984, that resulted in Amendment No. 3 to  
your license (issued December 31, 1984), we did not provide acknowledgement  
of the annual update that you submitted on May 31, 1984. We found this  
update acceptable and had no comments.

Sincerely,

Original signed by  
Leland C. Rouse
