Docket No. 50-193

Mr. T. Tehan, Director  
Rhode Island Nuclear Science Center  
Rhode Island Atomic Energy Commission  
South Ferry Road  
Narragansett, Rhode Island 02882-1197

Dear Mr. Tehan:

Subject: Inspection No. 50-193/93-01

This letter refers to the announced safeguards inspection conducted by Mr. A. Della Ratta on January 19-22, 1993, of activities authorized by NRC License No. R-95 and to the discussions held with you and Mr. W. Simoneau of your staff by Mr. Della Ratta at the conclusion of the inspection.

Areas examined during this inspection are important to public health and safety and are described in the Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel and observations by the inspector. Corrective actions for one violation and two unresolved items identified during our previous inspection, conducted on November 19-22, 1991, were evaluated and closed.

The inspector observed that the programs being implemented for the control, accountability and physical security of special nuclear material, including the transportation of irradiated fuel, were directed toward the protection of public health and safety. No safety concerns or violations of regulatory requirements were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC's Public Document Room.
