

MAY 21 1985

Mr. J. O. Zane
General Manager
EG&G Idaho, Inc.
P. O. Box 1625
Idaho Falls, Idaho 83415

Dear Mr. Zane:

I wish to thank you for EG&G's offer of technical assistance in the area of advanced reactors, as provided in your letter of April 29, 1985.

At the present time we are in the initial stages of working with the U. S. Department of Energy on the scope and schedule of our future interactions on their advanced reactor programs. We hope to have our plans in this area developed over the next several months, and as part of developing these plans our technical assistance needs in the advanced reactor area will become more clear.

The expression of interest and description of EG&G's capabilities contained in your April 29, 1985, letter will be useful to us as we develop our advanced reactor plans and your offer of technical assistance will receive full consideration.

If you have any questions regarding the above or the status of our plans in the advanced reactor area, please contact Dr. Themis Speis, Director of the Division of Safety Technology.

Sincerely,

(Signed) Jack W. Roe
