In the Matter of  
NORTHEAST NUCLEAR ENERGY COMPANY  
(Millstone Nuclear Power Station, Unit No. 2)  
Docket Nos. 50-336-OLA  
(ASLBP No. 92-665-02-OLA)  
(Spent Fuel Pool Design)

Dear Ms. Marucci:

The responses to the NRC Staff's discovery requests were initially due on January 21, 1993. When we spoke in late January, you assured me that CCMN would file its responses by February 1, 1993, and that you would send a letter to the Licensing Board confirming our conversation.

This letter will confirm our conversation of today, in which I requested that your discovery responses be filed no later than February 12, 1993.

Please respond to our discovery requests by that date, or we will need to file a motion to compel discovery in order to protect our rights in this litigated proceeding.

Sincerely,

John T. Hull  
Counsel for NRC Staff
