Docket No. 50-321

Georgia Power Company
 ATTN: Mr. J. T. Beckham, Jr.
 Vice President - Nuclear Generation
 P.O. Box 4545
 Atlanta, Georgia 30302

Gentlemen:

By letter dated September 10, 1984 (NED-84-479), your Company requested an extension of the completion dates for plant modifications needed on Hatch Unit No. 1 for compliance with the Commission's Acceptance Criteria for the Mark I Containment Long-Term Program. By letter dated October 31, 1984, the Division of Licensing informed you that such a request should be handled as an application for license amendment in accordance with the provisions of 10 CFR 50.90 through 50.92. Therefore, they were not taking formal action on your request.

Under the provisions of 10 CFR 170, each request for license amendment or other approval is to be accompanied by an application fee of \$150 which is required irrespective of the Commission's disposition of the application (10 CFR 170.12(a)). Since the \$150 application fee was not remitted with your request, it is requested that it be forwarded to us. If the costs of staff hours expended responding to your request exceed \$150, your Company will be billed in accordance with the provisions of 10 CFR 170.12(c) and 170.21.A.

Sincerely,

Original Signed by:
