

**FEB 04 1993**

Docket No. 50-443

Mr. Ted C. Feigenbaum  
Senior Vice President and Chief Operating Officer  
North Atlantic Energy Service Corporation  
Post Office Box 300  
Seabrook, New Hampshire 03874

Dear Mr. Feigenbaum:

SUBJECT: NRC INSPECTION REPORT No. 50-443/92-24

This refers to the safety inspection findings of the resident staff at Seabrook Station for the period December 22, 1992, through January 25, 1993. The inspection results are described in the enclosed report and were discussed with Mr. W. DiProfio of your staff.

Overall, this inspection determined that station personnel conducted activities safely. The operator responses during two reactor trips and the subsequent reactor startups were good. Management and supervisory personnel effectively managed the replacement of the service water pump and the troubleshooting activities associated with the generator ground fault which caused one of the reactor trips.

Thank you for your cooperation.

Sincerely,

ORIGINAL SIGNED BY:

A. Randolph Blough, Chief  
Projects Branch No.4  
Division of Reactor Projects

Enclosure: N&C Inspection Report No. 50-443/92-24
