SR-447
Docket No. ~~00007447~~

Mr. David Ward, Chairman
Advisory Committee on Reactor Safeguards
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Ward:

SUBJECT: ISSUANCE OF SSER 4 FOR GESSAR II BWR/6 NUCLEAR ISLAND DESIGN

Enclosed for use by the Committee are 16 advance copies of SSER 4 for the GESSAR II BWR/6 Nuclear Island Design prepared by the Office of Nuclear Reactor Regulation regarding an evaluation of the GESSAR II severe accident design. The evaluation discussed in this supplement closes out all of the outstanding issues with the exception of relay chatter. This issue still remains under consideration by the staff and will be resolved for GESSAR II prior to publishing the final supplement which addresses the ACRS's concerns.

Final copies will be provided when they are received from the printer. Any significant changes in the final copies from the advance copies will be identified. SSER 4 does not contain information considered to be company proprietary by GE.
