FEDERAL ENERGY REGULATORY COMMISSION

WASHINGTON, D. C. 20426

December 28, 1992

Honorable John C. Danforth
United States Senator
8000 Maryland Avenue
St. Louis, MO 63105

Dear Senator Danforth:

Thank you for your letter dated December 22, 1992, on behalf of Mr. Donald Eskridge, regarding nuclear license amendment fees.

Unfortunately, the Federal Energy Regulatory Commission does not have jurisdiction over the matter of interest to your constituent. The Nuclear Regulatory Commission should be able to be of assistance. Accordingly, I am forwarding your letter to that agency for a reply.

For future reference, the FERC is responsible for regulating the production, sale, and transmission of natural gas; establishing just and reasonable rates for wholesale sales and the interstate transmission of electric power; licensing non-Federal hydro-electric power projects; and regulating rates charged by pipeline companies to transport oil in interstate commerce. The FERC also has the authority to review certain rulemakings and major energy actions proposed by the Department of Energy.

If I can ever be of assistance on any Commission matter, please let me know.

Sincerely,

Cristena L. Bach
Director, Congressional Affairs
and State Liaison
