Office of Nuclear Reactor Regulation
Attn: John F. Stolz, Chief
Operating Reactors Branch No. 4
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stolz:

Three Mile Island Nuclear Station, Unit I, (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Technical Specification Change Request No. 144

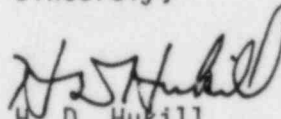

Enclosed are three originals and forty conformed copies of Technical Specification Change Request No. 144.

Also enclosed is one signed copy of the Certificate of Service for this request to the chief executives of the township and county in which the facility is located, as well as the Bureau of Radiation Protection.

Pursuant to 10 CFR 50.91(a)(1), we enclose our analyses, using the standards in 10 CFR 50.92 of significant hazards considerations. As stated above, pursuant to 10 CFR 50.91(a) of the regulations, we have provided a copy of this letter, the proposed change in Technical Specifications, and our analyses of significant hazards considerations to Thomas Gerusky, the designated representative of the Commonwealth of Pennsylvania.

Pursuant to the provisions of 10 CFR 170.21, enclosed is a check for \$150.00 as payment of the fee associated with Technical Specification Change Request No. 144.

Sincerely,

H. D. Hukill
Director, TMI-1

IN THE MATTER OF

DOCKET NO. 50-289
LICENSE NO. DPR-50

GPU NUCLEAR CORPORATION

This is to certify that a copy of Technical Specification Change Request No. 144 to Appendix A of the Operating License for Three Mile Island Nuclear Station Unit 1, has, on the date given below, been filed with executives of Londonderry Township, Dauphin County, Pennsylvania; Dauphin County, Pennsylvania; and the Pennsylvania Department of Environmental Resources, Bureau of Radiation Protection, by deposit in the United States mail, addressed as follows:

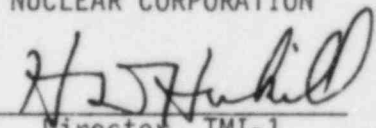

Mr. Jay H. Kopp, Chairman
Board of Supervisors of
Londonderry Township
R. D. #1, Geyers Church Road
Middletown, PA 17057

Mr. John E. Minnich, Chairman
Board of County Commissioners
of Dauphin County
Dauphin County Courthouse
Harrisburg, PA 17120

Mr. Thomas Gerusky, Director
PA. Dept. of Environmental Resources
Bureau of Radiation Protection
P.O. Box 2063
Harrisburg, PA 17120

MY COMMISSION EXPIRES JUNE 17, 1989
Member, Pennsylvania Association of Notaries

I. Technical Specification Change Request No. 144

The Licensee requests that the revised Figure 6-2 replace the existing Figure 6-2 in the TMI-1 Technical Specifications.

II. Reason for Change

This TSCR is requested due to a change in the Plant Engineering Department to improve the organizational structure. The change shows the addition of "Manager(s), Plant Engineering" positions reporting to the Plant Engineering Director. Current plans are for two such positions, with several of the Lead Engineers reporting to one of the two Managers.

The "Chemistry Supervisor" block title has been changed to "Staff Chemist" to reflect the current title for this position. The Lead Nuclear Engineer and the Staff Chemist continue to report directly to the Plant Engineering Director.

III. Safety Evaluation Justifying Change

The changes are administrative changes to assure better management of the engineering workload. The Plant Engineering Organization maintains the same number of disciplines, experience, and educational requirements.

This change therefore, does not reduce the margin of safety provided by the Technical Specifications.

IV. No Significant Hazards Consideration

These proposed changes are similar to Example ii of the "Amendments Not Likely to Involve Significant Hazards Considerations" from Federal Register Vol. 48, No. 67 at 14870 on April 6, 1983.

The proposed Amendment, which is similar to the suggested format in the Standard Technical Specifications, does not affect plant design or operation, and does not involve modifications to plant equipment or changes that would affect plant safety analyses. The organization change assures that an adequate number of disciplines with sufficient education and experience are available to provide the on-site engineering support necessary to TMI-1 operations.

This TSCR constitutes additional management control through an improved organizational structure of the Plant Engineering Department. Therefore, the proposed amendment involves no significant hazards considerations in that it does not:

- 1) Involve a significant increase in the probability or consequences of an accident previously evaluated.
- 2) Create the possibility of a new or different kind of accident from any accident previously evaluated.
- 3) Involve a significant reduction in a margin of safety.

V. Implementation

It is requested that the Amendment authorizing this change become effective upon issuance.
