Gentlemen:

SUBJECT: MEETING AGENDA

This is in response to your letter dated January 27, 1993, wherein you requested clarification of the scope of the meeting to be held at the Veterans Administration Medical Center at Houston, Texas, on February 25, 1993.

Enclosed you will find a Proposed Meeting Agenda which focuses only upon the activities of the Houston facility. Since the primary NRC participants are from the Region IV office in Arlington, Texas, there is no intention to deal with issues national in scope pertaining to the Department of Veterans Affairs. We have asked one member of the Office of Nuclear Materials Safety and Safeguards from our Washington office to attend the meeting; however, this request is normal for such a meeting with any of our licensees.

If you have further questions in regard to this matter, you may contact me at (817) 860-8186.

Sincerely,

Charles L. Cain, Chief  
Nuclear Materials Inspection Section
