Washington, D.C. 20555

Gentlemen:

We are belatedly responding to NRC Bulletin 92-02 regarding safety concerns relating to the "end of life" of certain Theratronics teletherapy units.

As authorized by NRC License No. 21-04109-08, we possess a Theratron model 780 teletherapy unit. Accordingly, we are exempt from the additional reporting requirements of Bulletin 92-02.

I affirm the accuracy of the information in this report. I apologize for the lack of timely response.

Sincerely,

*Ralph P. Lieto M.S.E.*

Ralph P. Lieto
