Commonwealth Edison Company  
ATTN: Mr. L.O. DelGeorge, Vice President  
Nuclear Oversight and  
Regulatory Services  
Executive Towers West III  
1400 Opus Place, Suite 300  
Downers Grove, IL 60515

Dear Mr. DelGeorge:

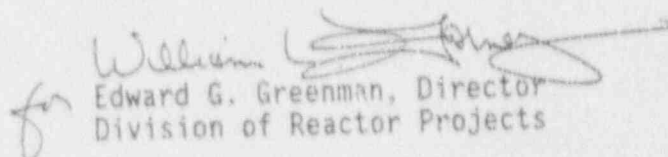

This confirms our plans as discussed between Mr. Stephen F. Stimac of your staff and Mr. Martin J. Farber of this office to have a meeting with you and members of your staff at the Zion Training Center, Zion, Illinois, on February 17, 1992, at 2 p.m. (CST). The purpose of the meeting is to present the Initial SALP 11 Report for Zion Station.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Commonwealth Edison Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Zion plant.

Sincerely,

  
for Edward G. Greenman, Director  
Division of Reactor Projects
