Dear Bob:

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Subject: In the Matter of
Texas Utilities Electric Company, et al.
Request for an Operating License for
Comanche Peak Steam Electric Station,
Units 1 and 2
Docket Nos. 50-445 and 50-446 DL

Discovery Requests

In Mr. Roisman's 5/28/85 letter to you regarding informal discovery requests, he stated, in part (page six):

"To the extent any request is deemed by you to be outside the scope of Docket 2 we are authorized by Ms. Ellis to state that the request should be considered a Docket 1 request. Since this is an informal request, as suggested by Judge Bloch, there is no time limit but we would appreciate a written indication from you within the next week regarding your willingness to participate in this informal discovery and your anticipated schedule for response."

There are a couple of aspects of this to which we would like to call your attention. First, CASE in the main docket considers all the questions set forth in Mr. Roisman's letter to be questions to which we would also like answers. Please be sure that we are also provided with copies of all responses you supply in Docket -2. Also, the term "documents" should be construed as set forth in item 3, page 2, of CASE's 6/24/85 Interrogatories to Applicants and Requests to Produce re: the MAC Report and Issues Raised by the MAC Report.

We have not seen any response from you to Mr. Roisman's request that you provide a written indication regarding your willingness to participate in this informal discovery or your anticipated schedule for response. We note that several of these requests pertain specifically to the qualifications of officials and consultants, regarding which the Board ordered that "Applicants shall respond in a prompt fashion to outstanding discovery requests concerning qualifications of officials and consultants" (see Board's 5/24/85 Memorandum and Order (Case Management Plan), , page 5, item 3). We have not yet thoroughly reviewed Applicants' recent filing of the CPRT plan; however, it appears from a very cursory review of it that some of the requested information is not contained therein.

DS03

CASE considers the information requested to be an absolutely essential ingredient for us to be able to adequately respond to Applicants' 6/28/85 Current Management Views and Management Plan for Resolution of All Issues and its attachment, the CPRT Plan (which CASE in the main docket did not receive until 3:25 P.M. on 7/3/85). To the extent that the requested information is not included in Applicants' filings, please advise when we may expect such responses (as well as the others included in Mr. Roisman's filing).

Sincerely,

(Mrs.) Juanita Ellis, President
