Florida Power Corporation
ATTN: Mr. W. S. Wilgus
Vice President Nuclear Operations
P. O. Box 14042, M.A.C. H-2
St. Petersburg, FL 33733

Gentlemen:

SUBJECT: REPORT NO. 50-302/85-21

On April 26 - May 24, 1985, NRC inspected activities authorized by NRC Operating License No. DPR-72 for your Crystal River facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements and other activities appeared to deviate from a commitment to the NRC. The deviation, with pertinent references and elements to be included in your response, is presented in the enclosed Notice of Deviation.

The violation described in the enclosed Notice of Violation is similar to a violation contained in a Notice of Violation sent to you with our letter dated April 11, 1985, and is also similar to a violation described in NRC Inspection Report No. 50-302/85-11 (but not cited) sent to you with our letter dated April 23, 1985. We note in your letter dated June 6, 1985, that you have responded to the Notice of Violation sent to you with our letter dated April 11, 1985 (violation 85-08-07) and that this response also addresses the violations discussed in this report and in NRC Inspection Report No. 50-302/85-11. We are presently evaluating this response, therefore, no additional response to this violation is required.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

/s/ David M. Verrelli

Roger D. Walker, Director
Division of Reactor Projects
