SAFEGUARDS INFORMATION

MAY 24 1985

Tennessee Valley Authority
ATTN: Mr. H. G. Parris
Manager of Power
500A Chestnut Street Tower II
Chattanooga, Tennessee 37401

Gentlemen:

SUBJECT: DOCKET NOS.: 50-259, 50-260 AND 50-296

This acknowledges the receipt of your letter of January 3, 1985, which transmitted a revision dated January 1, 1985, to the Browns Ferry Physical Security and Contingency Plan.

Our review of the changes identified a significant number which were either inconsistent with the provisions of 10 CFR 50.54(p) or lacked sufficient detail to make a determination of adequacy. Our concerns were discussed in a meeting with Mr. R. Rogers and members of your staff by Ms. C. Perny, of this office, on April 25, 1985, and are delineated in the enclosure to this letter.

To preclude a violation of regulatory requirements, you must not continue to implement those changes deemed inconsistent. Please revert to the commitments in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Materials Safety and Safeguards, under the provisions of 10 CFR 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

8505310133 850524
PDR ADOCK 05000259
