Reference: Corrective Action - Source Materials License SUA-551

Dear Mr. Hall:

Groundwater monitoring data from Main sand well 5-DC indicates possible effects to the groundwater due to seepage from the tailings area. We are currently evaluating this situation and potential corrective action alternatives.

Confirming my telephone discussion of December 28, 1992, with Ms. Cynthia Miller-Corbett of your staff, we plan to complete our evaluation and submit a proposal for corrective action, if warranted, by July 1, 1993.

Sincerely,

R. A. Juday
