Re: License SUA-1471 - Supplement to Environmental Report

Dear Mr. Garcia:

As we discussed, you were interested in wind direction and velocity for the weather data that needs to be submitted in the supplement to Environmental Report. Attached is a quarterly wind rose for 1984 and composite wind rose for October 1987 thru December 1988.

Should you have any other questions please contact me.

Sincerely,

HOMESTAKE MINING COMPANY
