Description Report

Dear Mr. Wescott:

The subject milestone is specified in the Center for Nuclear Waste Regulatory Analyses (CNWRA) Operations Plans for the Division of Waste Management (DWM). The letter report, which is entitled "Licensing Support System (LSS) Test Bed Description Report" was prepared to fulfill this milestone. The title of this deliverable was changed from that in the Operations Plan based on programmatic direction from the Nuclear Regulatory Commission (NRC). This report describes the recently completed LSS Test Bed server which has been placed on the Internet.

The subject report fulfills IM 5708-764-610 and is submitted for your review and acceptance. If you have any questions on this report, please call me at (210) 522-3805 or Aaron DeWispelare at (210) 522-6072.

Very truly yours,
