Subject: Export Licensing Application for Replacement
Fuel Rod for Kernkraftwerk Leibstadt (KKL)

Dear Ms. Wright:

The attached is General Electric Technical Services Co., Inc.'s original NRC License application for 34 Xgs of natural to 5% enriched uranium as Uranium Dioxide (UO₂) to be exported to either

- 1) Empresa Nacional del Uranio, S.A. (ENUSA) (fuel fabricator) with ultimate end use being a replacement fuel rod for repair of a fuel bundle at KKL in Switzerland.
- or
- 2) A fuel rod to be exported from General Electric Company, Wilmington, NC with ultimate end use being a replacement fuel rod for repair of a fuel bundle at KKL in Switzerland.

Enclosed also is General Electric Technical Services Co., Inc.'s check #1801946 in the amount of \$3100.00 payable to the U.S. Nuclear Regulatory Commission for the processing and issuance of this export license as required by law. This export license is required by April 1993 to assure our contractual requirement to repair the fuel bundle.

Your prompt assistance and contact with the U.S. State Department and Department of Energy is required.

Thank you for your attention in this matter.

D. L. Murray
