RE: Renewal of Byproduct Material
License 12-00330-09

Gentlemen:

I am writing to request that you renew our Byproduct Material License, No. 12-00330-09 which is due to expire on 31 March, 1984. The program authorized under this license has not changed since the license was renewed last. An updated description of the University's overall radiation safety program, the administration, the Radiation Hazards Committee, etc., was submitted in detail during negotiations for the most recent renewal of our Broad license, 12-00330-05, issued in May, 1983. There have been no significant changes since then.

Please direct all correspondence regarding this matter to me.

Sincerely,

Hector Mandel, Head
Health Physics Section
