Dear Mr. Hall:

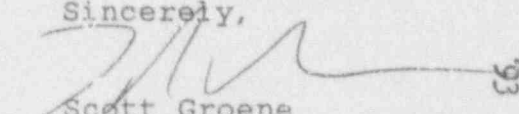

I understand that NRC is now considering the clean up of the Atlas mill and waste materials near Moab, Utah.

The Southern Utah Wilderness Alliance is a 10,000 member organization concerned with environmental issues in southern Utah. We would appreciate being included on your mailing list as your agency proceeds with the NEPA process for this clean up.

We would also appreciate it if you could advise us of what steps the NRC intends to take to involve the public in this decision making process as well as advising us when NRC intends to release a draft NEPA document for public comment.

Thank you for your assistance, and please call if you have any questions.

Sincerely,

  
Scott Groene  
Staff Attorney
