The Commission has issued the enclosed Amendment No. 41 to Provisional Operating License No. DPR-45 for the La Crosse Boiling Water Reactor. This amendment is in response to your application dated December 19, 1983.

The amendment approves changes to the Technical Specifications relating to the exclusion area, coolant water purity limits and containment airlock door seals. These issues were discussed in NUREG-0827, June 1983, the Integrated Plant Safety Assessment Report for LACBWR. The remaining items in your December 19, 1983 application will be addressed in separate correspondence.

A Notice of Consideration of Issuance of Amendment to License and Proposed No Significant Hazards Consideration Determination relating to the requested action was published in the Federal Register on March 22, 1984 (49 FR 10733). No requests for hearing and no comments were received.

A copy of our related safety evaluation is enclosed. This action will appear in the Commission's monthly Federal Register notice.

Sincerely,

8505310253 850528
